Will be Tripled, in Opinion of G.
T. Aultman, Assessor.

WORK IS COMPLETED TODAY.

Property Valuation Expected to
Run Above \$15,000,000—Mr.
Aultman Issues Statement

That Rushville township will equal the record of Union township, the first to report, whose real estate and personal property assessments this year tripled those of last year, was the prediction today of George T. Aultman, township assessor, who has completed the work and is sending out notices of assessments of real estate.

Mr. Aultman said that the totals would not be computed on Rushville township and Rushville city assessments until Monday, but that he expected the showing here would be equally as good as in Union township. If this year's valuations placed on personal property and real estate run the same in every township as they did in Union, the assessed valuation of Rush county property of all classes on which taxes will be paid next year, will be above \$75,000,000. This is beyond all expectations, because it has never been estimated that the valuations would be more than doubled.

The taxables of the county now amount to \$23,263,795. The assessed valuation of Rushville township property of every description amounts to \$5,192,960, of which \$3,184,355 is in Rushville city and \$2,008,605 outside of the city. It will be seen that if the township assessor's prediction comes true, the valuation in this township for next year will run well above \$15,000,000 and the valuation in Rushville city will total between nine and ten million.

It should be understood, of course, that these figures do not represent all of the taxables. They are exclusive of the taxable property of the railroads, interurban line, public utilities and other corporations assessed by the state board of tax commissioners. With the addition of these assessments, Union township taxables will be increased above the figure given yesterday, and Rushville township's will be

SPECIAL INDUCEMENT
OFFERED IN WALKER

Thirty Dollars in Prizes Will be Offered in Boys and Girls Pig Feeding Contest

SAME RULES TO GOVERN IT

Special inducements are offered to the boys and girls of Walker township to enter the pig feeding club being organized by Marion F. Detrick, county agricultural agent. Lew Lewis, Walker township trustee and club leader in his township, announced today that he had raised \$30 to be offered as prizes in the Walker township contest.

The winner of the township contest will receive \$15, second prize will be \$10 and third prize \$5. The same rules apply in the township contest as in the county contest. The rules were published in the Republican yesterday.

There is no reason why Rush county, the largest hog-producing county in the United States except one, should not make a good showing in the state contest, and the county contest is being conducted with the view of producing a state winner.

Elks Committee Visits Backward Townships to Stir Them Up.

Although the Salvation Army Home Service fund had passed \$1,000 today, it was not progressing to the satisfaction of the Elks committee, who were out visiting backward townships today. Will F. Frane and R. L. Tompkins went to Riehland and New Salem this morning and planned to stir up other townships. The campaign ends Monday and Rush county is only one-third of the way over.

A prominent Jackson township farmer gave the committee \$25 this morning and asked that it be credited to his township.

AMERICANS TO BE

France Will be Cleared of
Yanks by That Time.

ALL RECORDS BROKEN IN MAY

Chief of Staff Says Army is Sixty
Percent Demobilized—Foch Has
Ample Force.

(By United Press) Washington, May 24.—France will be practically cleared of Americans by July 30, a chart received at the war department today from Gen. Pershing, showed.

Troops assigned to service of supplies as scheduled should be out of France by the end of July, General March stated.

The army, March announced, is sixty per cent demobilized. Since the armistice, 2,215,160 soldiers have been demobilized. All records for returning men have been broken during May, it was stated.

General Pershing reported that the war department must cease its policy of sending for individual soldiers, whose families are in distress, or for other legitimate causes, for returning home. These men would be delayed if taken away from the organization and troops returning with their own units will return home sooner than if transferred to casual companies.

Army enlistments continue to be promising, March stated.

The war department estimated a total of about \$1,000,000 for deficiency submitted to congress for the fiscal year ending July 21.

Allied military forces ready for action on the western front are believed sufficient to handle any military problems that might result from Germany's refusal to sign the peace treaty Chief of Staff March announced today.

Marshal Foch has under his command, March stated, sufficient French, British and American soldiers to accomplish whatever the allies wish in a possible conflict against Germany. French and British troops he said, greatly outnumber the Americans.

EVACUATING THE CAPITAL
Bolsheviks Reported Today to Retiring From Petrograd

(By United Press) Copenhagen, May 24.—The Bolsheviks were reported today to be evacuating Petrograd in the face of continued advance of Estonian and Finnish armies. Unconfirmed dispatches stated that Soviet forces broke up ammunition dumps near the city.

Russian citizens in the suburbs have arisen against the Bolsheviks. The Estonians have taken a city forty miles southwest of Petrograd.

GRAND MASTER WILL BE HERE

Local Lodge Organized Here May 13, 1846 and Has prospered and Grown—402 Members

The Independent Order of Odd Fellows will hold their Centennial and Victory celebration at the hall of Franklin Lodge here May twenty-ninth, next Thursday. At 2:30 p. m. the lodge will formally be opened for business and following the business session, there will be a reception for Harry W. Winterrowd, Grand Master. At 6 p. m. a banquet will be served by the Rebekahs and at eight o'clock the lodge will reconvene for further business, at which time the Degree of Truth will be conferred on the Centennial Class consisting of the following:

Harry Adams, L. L. Allen, Guy Davison, I. L. Endres, Osoo Farthing, R. O. Flint, Ira Fultz, Ezra Hinkle, Dale Jackson, Omar Jordan, Gates Ketchum, Charles Kramer, W. F. Leming, Dallas Macy, Clyde Newbro, Court Oldham, Gary Oldham, Donald E. Pease, Earl Perkins, Jacob P. Smith, John P.

H. A. WINTERROWD, Grand Master of the Independent Order of Odd Fellows.

Immediately after the conferring the Degree of Truth the lodge will be addressed by Grand Master Harry A. Winterrowd and Gates Ketchum will give the response in behalf of the lodge. Music for the evening will be furnished by the lodge orchestra.

During the degree work, the ladies of the order will have a party in the banquet room, and after the completion of the work, there will be a recess in the lodge and the ladies will be invited in to hear the grand master's address, and for the remainder of the program, which will be open to the public.

During the war period twenty-six of the lodge's members were put on the honor roll. They are: Edward T. Amos, Charles Broadhead, Jr., Charles Cecil, Jesse M. Cline, John W. Colvin, Edgar Crull, Ivan Dillon, Glenn T. Edwards, George L. Feaster, Harley Frazier, Frank M. Gardner, Herman Kinnett, John Kipplinger, Henry V. Logan, Clarence O. Lloyd, Byron S. Newhouse, Harry T. Newhouse, Perry Oneal, Millard Palmer, Harold Pearce, Harry Petty, Joe Saunders, Sam Scott, Samuel L. Trabue, Herbert Walker and Carl Weidner.

The Franklin Lodge was instituted May 13, 1846 and in 1865 the present building was erected to be remodeled during 1911 and 1912. The local order has figured largely in the deliberations of the Grand Lodge and has been represented by four grandmasters, P. A. Hackleman, in 1857, Leonidas Sexton in 1876; Edwin Farrer in 1904 and the last being J. T. Arbuckle in 1914 and 1917 and Edwin Farrer, P. G. M. is assistant Grand Secretary at the present time.

DRYS MAY SPLIT OVER PLAN

Some Oppose Creation of a Prohibition Commissioner.

(By United Press)

Washington, May 24.—Drys threatened to split over methods of enforcing the prohibition act, it was learned today.

Representative Randall, only prohibition party man in the congress, said he would oppose creation of a prohibition commissioner as proposed in the Sheppard bill. Meantime, the decision of Federal Judge Mayer in New York that brewing of beer containing two and three-fourths per cent alcohol is legal, will continue until the higher court passes on the case.

MORE COUNTER PROPOSALS

Austrian Terms Will be Completed and Presented to Enemy Delegates Next Week

(By United Press)

Versailles, May 24.—Foreign Minister Brockdorff returned here today from Spa where he conferred yesterday with representatives of the German government.

Paris, May 24.—The treaty will be signed by the allies and German delegates between June 10 and 15, or the armistice will be broken, was the forecast in peace circles today.

The Germans are now expected to hand the allies their counter proposals by May 29. These will be printed in book form and will be almost as voluminous as the allied treaty. The present indications are that the allies will take four or five days to study the German's counter proposals before replying and then it is expected that it will take the Germans about the same time in which to make up their minds about signing.

The Austrian peace treaty is expected to be completed Tuesday and presented to the enemy delegates on Wednesday or Thursday. The working out of terms has proven a difficult task especially the apportioning of the former dual monarchy's pre-war debt.

In Austria and the new states of Jugo-Slavia and Czechoslovakia, the army will be reduced to a mere police force, probably 15,000 men, and all remaining artillery will be surrendered.

The Big Four today continued discussion of the Russian situation, which has again come to the front as the result of tentative plans of the allies to make some recognition of Admiral Kolchak, dictator of the Omsk government.

Debate on Peace Treaty in Senate Promises to Set New Record For Party Contests

DEMOCRATS PLANS ARE MADE

Robinson Will Open Campaign to Stir up Sentiment—Watson and New Get Good Berths

(By United Press)

Washington, May 24.—Senate debate on the league of nations promises to be the most bitter partisan fight staged in the upper house for years.

Democrats are preparing a series of speeches to counter republican attacks. Sen. Robinson, Arkansas, will begin the democratic campaign to stir up popular sentiment which will force hostile senators to vote for the league covenant, he says.

Debate on the league covenant will be resumed again Monday.

Senator Hiram Johnson's resolution for immediate presentation of the full text of the treaty is the only unfinished business and will come up each day until disposed of, either by direct vote, or be sent to the foreign relations committee.

In addition to discussion of Johnson's resolution, Reed will speak Monday on the league and Robinson will follow him.

It is reported that Johnson is preparing a speech that will be delivered within a few days.

Announcement by Senator Lodge that he will apply pitiless publicity to senate's consideration of the treaty, was stated today to be positive assurance that much of the discussion will be in open session for the first time in the history of the treaty making in this country.

Due publicity, republican leaders say, will provide justification for their demands for amendment of the league covenant.

While the senate today took a week-end rest, the house continued consideration of the Indian appropriation bill.

The republican committee states are now virtually complete. Senators Watson and New of Indiana are both picked for good berths. Senator Watson will retain his place on the interstate commerce committee, which will deal with the railroads.

THREE FIREMEN DIE
IN BLAZE ON SHIP

Old Bay Liner Steamer Virginia Totally Destroyed in Chesapeake Bay Today.

100 PASSENGERS RECUED

(By United Press)

Norfolk, Va., May 24.—Three colored firemen are known to be dead and several passengers are believed lost as the result of a fire which totally destroyed the Old Bay liner steamship Virginia, in Chesapeake bay early today.

Nearly one hundred passengers from the ill fated vessel landed here, most of them scantily clothed and all their baggage lost.

The Virginia left Baltimore last night for Norfolk. About one o'clock fire was discovered in the forward hold. It spread so rapidly that the fire apparatus was useless. As the second life boat was being lowered, the rope broke and 18 women dropped into the water. Thirty-five other women met the same fate.

Whether all of the passengers were rescued it cannot be determined until the list has been checked up. The three colored firemen were trapped by the fire and were unable to escape.

OLD BAY LINER BURNS lost. A Chesapeake liner picked up Norfolk, Va., May 24.—The Old survivors and brought them to New liner Virginia burned early this morning. Other survivors were picked up near Smith's Point. It is up by Washington and Baltimore is known whether any lives were lost.

SECOND IN LARGE
AREA OVER THE TOP

Connersville District, in Which St. Paul's Church Was First. Pledges Centenary Quota

CAMPAIGN CLOSES SUNDAY

The Connersville district of the Indiana M. E. conference was the second in the Cincinnati area, embracing six conferences, to report its Centenary quota subscribed. The campaign for the Indiana conference allotment of \$3,100,000 will close tomorrow, when it is hoped to have a large oversubscription.

St. Paul's church of this city was in a large measure responsible for the Connersville district's record because of having pledged more than \$33,000 the first week in April, more than a month before the campaign officially opened, and thus set a fine example for other churches. The Rev. C. S. Black, pastor, received many congratulatory letters and messages when his church went over the top April 5.

The aim of the Connersville district is to have every church 100 percent by tomorrow night. Although the district has subscribed \$386,000 an oversubscription of \$490, some individual churches have not made their quota. Those not over the top are: Liberty, Brookville, Arlington, Richland, Clarksburg, First church and West Street church, both of Shelbyville.

WILL EQUAL THE RECORD IN UNION

Continued from Page One more than the totals which Mr. Aultman will prepare Monday.

Mr. Aultman today issued the following statement to the citizens of Rushville city and Rushville township, announcing the close of the assessment work:

The assessment of the personal and real estate of the city and township being now complete notices of assessments of real estate are being sent out as rapidly as time and the difficulties of the work will permit.

Having sought with patient care to follow the law and honestly and impartially appraise all classes of property, I am nevertheless conscious of imperfections owing to tangled conditions arising from changes of ownership and difficulty of locating many pieces of real estate. I will gladly and willingly rectify any mistakes which are called to my attention and take this occasion to thank the property owners and officials who so kindly contributed to the task.

Recently an amended second paragraph of the complaint was filed, in which the demand was raised to \$82,275. The allegations in the amended second paragraph are the same as those in the original complaint and second paragraph. Mr. Dagler says the farm in Ohio for which he traded was represented to be worth \$65,925, but in reality it was worth only \$14,650, and that he is liable for three notes for \$26,000 which he executed to one of the defendants.

FRANCES WESTERFIELD DIES

Long Illness Results From Broken Hip Suffered Years Ago.

Mrs. Frances Westerfield, age 83, died at her home in Manilla last night about nine o'clock, following a long illness brought on by a fall several years ago when she broke her hip. She is survived by one son, George W. Westerfield of Manilla, and two brothers, Robert Edwards of Manilla and L. H. Edwards of Shelby county. The funeral services will be conducted tomorrow afternoon at 2:30 o'clock, in charge of the Rev. James W. Brown, at the Christian church in Manilla.

The Interchurch Movement

The productive capacity of the world would be at least doubled if the health of the non-Christian races could be brought up even to the level of the health of the Christian on statistics of progress everywhere is the underlying idea in a program for the study of life-conservation to be presented in a series of summer conferences just announced by the Interchurch World Movement of North America. Americanization of our foreign born citizens is the second great plank in the platform for the meetings.

Practically every organization of any magnitude connected with the missionary and welfare work of seventy-six Protestant denominations will be represented at the conferences, which are to be primarily training schools for leaders of the great Interchurch campaign. The series begins with the meeting at Blue Ridge, N. C., June 24 to July 3, followed by Silver Bay, N. Y., July 4 to 13; Estes Park, Colo., July 11 to 20; Asilomar, Calif., July 15 to 24; Oconee Park, Mo., July 18 to 27; Lake Geneva, Wis., July 25 to August 3; and Seabrook, Wash., July 30 to Aug. 8.

The Missionary Education Movement has given up to the Interchurch Movement all the facilities for the

missionary training conferences it has conducted in past summers, including the personnel of its field organization, to take effect June 1, and the Women's Missionary Movement has taken similar action, according to word just given out by national officials of the two organizations. With these combined powers added to the representative forces of the larger project, there is an expanding and diversifying of the scope of the summer meetings that leaves only a slight resemblance to those of other years.

The seventy-six denominations included in the scope of the Interchurch Movement, with 200,000 separate churches and congregations totally more than 50,000,000 people are combining their resources for systematic effort to improve conditions of life in all parts of the world. By the introduction of Christianity, the modern interpretation as furthered by the Interchurch projects means also introducing the benefits of Christian methods of living, in sanitation, child culture, working conditions, housing, clothing, scientific method of production and manufacture and any other element conducive to prosperity, health and general usefulness in the world.

Graduation

At the end of May and during the month of June the schools of our land are turning out thousands of boys and girls who have completed the courses assigned.

Each of these young people is prepared in a great measure for life. They may complete their school at this point, or may go on to college. In either event, each has received a valuable education from books and teachers, and one equally valuable from the association with other pupils, on the playground and after school hours.

The boys and girls have worked hard to complete their work and attain to graduation. Schools and communities are right in recognizing graduation as an event of importance. It is well to make the graduation day one that will leave a delightful impression in the heart of every student.

Then let us realize that the girls are entitled to their pretty white dresses and flowers and the boys to their new suits, and that every ar-

Janesville Two-Row Cultivator

WHEN you sit comfortably on the easy riding Janesville Two-Row, and see every plant in every row getting exactly the cultivation you want it to have, you think what a blessing it is that you have a machine to do all that work. The old timers would think so if they could see you getting over the field so rapidly, and doing the work better than they ever did.

The Janesville Floating Arches solve the problem. They are hung by pendulums from the top bar and swing from side to side with a pendulum movement. You widen or narrow the gangs in the row with your feet. Or lock them at any width desired.

The shovels naturally follow the rows, but you can shift them to either side so quickly and so easily that you can hoe every hill without stopping the team.

Your own weight on the seat bars acts as a lever to turn the wheels slightly up hill—this big advantage takes the down-hill creep out of side-hill plowing. The entire machine is light, compact, flexible—no oiling needed except in wheel boxes.

Cultivate with a Janesville Two-Row—and you will forget that there ever was hard work in cultivation.

and moral movements of the community and the record during the past war is one to be proud of. Thirty-six members responded to the call and took up arms against Germany. Liberty bonds of each issues were bought and a sufficient amount of Victory Bonds were purchased to have a hundred dollar bond for each member who had enlisted—\$2,600.00.

The Red Cross and other war activities were liberally supported and all the war restrictions were rigidly observed by the lodge. The lodge at present has a membership of 402 and resources of \$16,000, over \$5,000 of which is invested in interest-bearing stocks and other investments. The lodge has a degree staff of thirty men, thoroughly drilled and equipped to confer the degrees in the most approved manner. This is the close of an active season for the local order and from all indications a bright future lies before them.

The present membership of the order is two and a quarter million members with resources of over seventy-three millions dollars. The lodge expends for relief each year nearly seven million dollars.

The Centennial committee, which made arrangements for the celebration is composed of Frank McIlwain P. G., chairman, Alva Newhouse, Miles S. Cox, J. T. Arbuckle, Arnold Orme and Walter Perkins.

The Franklin Lodge degree team, of which Alva E. Newhouse is director, is as follows:

Will Ash, Glenn Edwards, Henry F. Gregg, W. H. Gregory, Harry Land, Bert Mattox, J. W. Miller, Andrew Moore, C. L. McGinnis, Bert McIlwain, Frank McIlwain, Byron Newhouse, Arnold Orme, Walter Perkins, P. M. Platt, Russell Price, Earl Readler, Wm. Rodough, Chas. Alleged Slayer of Greensburg Detective, Who Escaped From Jail at Columbus, is Dead

BODY SUPPORTED BY TREE

Columbus, Ind., May 24.—The body of Thomas Washington, colored, of Indianapolis, the alleged slayer of Elmer Robbins, a Big Four Railway detective, at Greensburg, Ind., several weeks ago, was found in White River here late yesterday afternoon by Andrew Crandall of Louisville, Ky., who had gone fishing. The body was supported by a small tree, which held the head and shoulders above the water.

Two small pieces of steel saws were found on the body when it was

searched by Coroner George Cline. These pieces fitted exactly with other pieces found at the jail after Washington escaped.

Washington and two other men, Donald O. Stanley and Albert Myers both of Indianapolis, escaped from the local jail on Tuesday, May 13. Stanley was later apprehended. The latter two were charged with stealing an automobile. The theory is advanced by the local police that Washington was drowned while trying to obliterate his tracks by swimming the river.

Thomas Washington was arrested at Indianapolis April 17 a few hours after he had shot and killed Elmer Robbins, a Big Four Railroad detective, at Greensburg, Ind. With Washington was John Hancock also colored.

**The Heel of
Achilles
in Tires**

The weak spot in a tire is where tread stops and sidewall begins.

On any road but smooth, flat pavement, the spears of the road—stones and broken rock—are constantly jabbing at this Heel of Achilles. And the sides of wagon tracks, when you ride ruts, grind wickedly at vulnerable flanks.

Your eyesight tells you that. Now look at the SAFETY TREAD of Goodrich Tires. See how it spreads the Goodrich interlocking safety bars beyond the ball of the tire, and lays extra tread rubber along the sidewall.

Notice further, how the extrawide tread carries on up the sides of the tire, extending beneath the sidestrips.

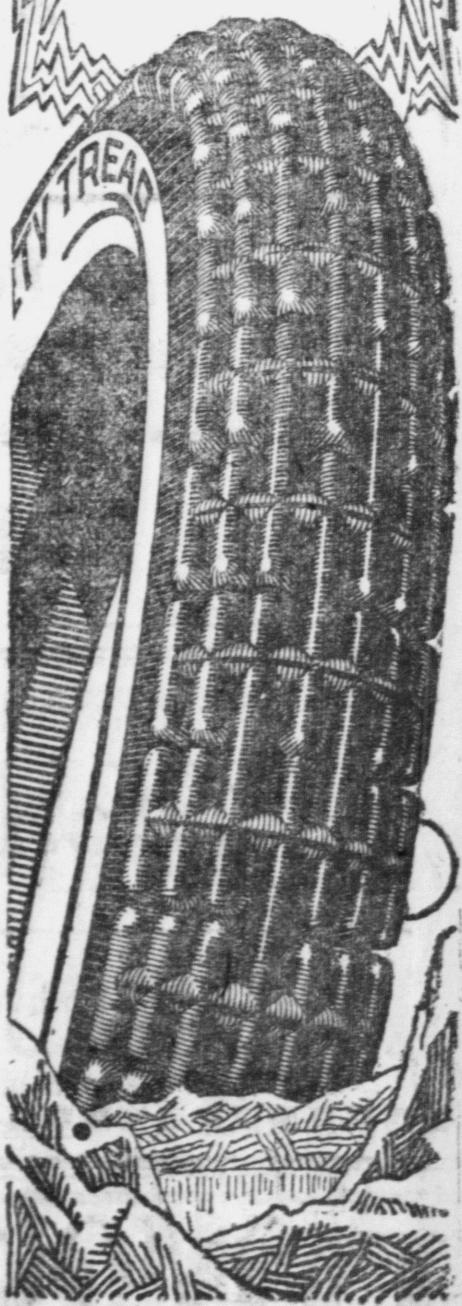

Thus an extra thickness of tough tread rubber fortifies Goodrich Tires at the Heel of Achilles.

Remember, that is one of the many reasons why Goodrich Tires lead in mileage over all roads, rough or smooth.

verted into negligees, these brilliant coverings are simply stunning and bring out the Carmen in even the demurest of the species. It only needs a sheer Spanish onion for atmosphere and a guitar and castanet dancer on the Victrola, to make the Andalusian delusion quite complete.

Then there's the characteristic Spanish mantilla, black or white, of exquisitely fine and silky handwoven Spanish lace—some of filmy delicate design and other more strikingly ornate and of a larger mesh. These we are flaunting, not as the Castilian beauties over their high combed coiffures and ivory throats and bosoms, but over our shimmering, shimmering shoulders, in the form of scarves, so imperative now as an accessory to the fluffy summer frock of sheerest weave. It's really quite a pleasant surprise to find that these lovely lengths of Spanish lace actually come from the Iberian peninsula, for acent that other Spanish accessory which is rushing so persistently to our heads, the high shell comb. I have my doubts as to its Spanish habitat. At least judging from my own experience for I simply confound all the Madrid shops both large and small, for a real honest-to-goodness Spanish comb and had to catch the train to Paris says the article. Since returning home, however, I have made good the deficiency for the other day I bought a stunning one in Brooklyn.

Those gaudily gorgeous and hec-tically hueled embroidered Spanish shawls, whose long fringed edges wrap the feminine elite of Spain on gala bullfight days, make perfectly bully summer evening wraps, to be worn at the end of a torrid day instead of at the end of a tornado. Don't by any chance make the fatal mistake of wearing a Chinese embroidered shawl and fancying your self *espagnola*, however. To be sure there is little difference in the brands at a discreet distance, but a close-up will reveal a subtle differing of texture and design. The greatest difference of all, of course, is that the true Spanish shawl never even saw Spain, but is manufactured in the Philippine Islands. Come

to handcarved tortoise, blonde or dark, in amber or in jet, these combs are as expensive as they are large, beautiful and fragile. Fortunately imitation shell ones carved or plain, are almost as immune from detection as a well made pearl. They are also one fourth as expensive and four times as durable as the real tortoise combs. Worn in the loosely waved high coiffures of the evening mode, thrust in at most quaint angles, they make an artistic adjunct to the smartest toilette and are of

ten it's crowning glory.

The long, graceful cape mantles of black satin, fringe-edged, smack of the Spanish influence and a revival of those charming handpainted ivory mounted Spanish fans is also at hand.

To be truly smart you must wear something characteristic of sunny Spain. So do slip on something Spanish after your morning tub, even if it's only a piece of soap provided, you're quite sure it's pure Castle.

Property Valuation Expected to
Run Above \$15,000,000—Mr.
Aultman Issues Statement

That Rushville township will equal the record of Union township, the first to report, whose real estate and personal property assessments this year tripled those of last year, was the prediction today of George T. Aultman, township assessor, who has completed the work and is sending out notices of assessments of real estate.

Mr. Aultman said that the totals would not be computed on Rushville township and Rushville city assessments until Monday, but that he expected the showing here would be equally as good as in Union township. If this year's valuations placed on personal property and real estate run the same in every township as they did in Union, the assessed valuation of Rush county property of all classes on which taxes will be paid next year, will be above \$75,000,000. This is beyond all expectations, because it has never been estimated that the valuations would be more than doubled.

The taxables of the county now amount to \$23,263,795. The assessed valuation of Rushville township property of every description amounts to \$5,192,960, of which \$3,181,355 is in Rushville city and \$2,008,605 outside of the city. It will be seen that if the township assessor's prediction comes true, the valuation in this township for next year will run well above \$15,000,000 and the valuation in Rushville city will total between nine and ten million.

It should be understood, of course, that these figures do not represent all of the taxables. They are exclusive of the taxable property of the railroads, interurban line, public utilities and other corporations assessed by the state board of tax commissioners. With the addition of these assessments, Union township taxables will be increased above the figure given yesterday, and Rushville township's will be

ALL RECORDS BROKEN IN MAY

Chief of Staff Says Army is Sixty
Percent Demobilized—Foch Has
Ample Force.(By United Press)
Washington, May 24.—France will be practically cleared of Americans by July 30, a chart received at the war department today from Gen. Pershing, showed.

Troops assigned to service of supplies as scheduled should be out of France by the end of July, General March stated.

The army, March announced, is sixty per cent demobilized. Since the armistice, 2,215,160 soldiers have been demobilized. All records for returning men have been broken during May, it was stated.

General Pershing reported that the war department must cease its policy of sending for individual soldiers, whose families are in distress, or for other legitimate causes for returning home. These men would be delayed if taken away from the organization and troops returning with their own units will return home sooner than if transferred to casual companies.

Army enlistments continue to be promising, March stated.

The war department estimated a total of about \$1,000,000 for deficiency submitted to congress for the fiscal year ending July 21.

Allied military forces ready for action on the western front are believed sufficient to handle any military problems that might result from Germany's refusal to sign the peace treaty Chief of Staff March announced today.

Marshal Foch has under his command, March stated, sufficient French, British and American soldiers to accomplish whatever the allies wish in a possible conflict against Germany. French and British troops he said, greatly outnumber the Americans.

Washington, May 24.—Drys threatened to split over methods of enforcing the prohibition act, it was learned today.

Representative Randall, only prohibition party man in the congress, said he would oppose creation of a prohibition commissioner as proposed in the Sheppard bill. Meantime, the decision of Federal Judge Mayer in New York that brewing of beer containing two and three-fourths per cent alcohol is legal, will continue until the higher court passes on the case.

MORE COUNTER PROPOSALS

Austrian Terms Will be Completed
and Presented to Enemy Delegates Next Week(By United Press)
Versailles, May 24.—Foreign Minister Brockdorff returned here today from Spa where he conferred yesterday with representatives of the German government.

An affidavit for a change of venue was filed by the defendant in the damage suit of Violet Garrison against Charles W. and James E. Mouch of Newcastle, which was sent her on a change of venue from Henry county.

William E. Inlow, who was appointed receiver in the case of John W. Britain against Claud Dawson and others, refused to accept the trust and the appointment was vacated by Judge Sparks. The receivership proceedings were dismissed yesterday and the costs paid, all other issues raised in the original suit being dismissed May 5 when Mrs. Inlow was appointed. Other demands made were for a partition, sale of real estate, an accounting and quiet title.

A motion was filed yesterday to quash the indictment against William Sanford and his son, Stanley J. Sanford, together with the latter's wife, Lottie Sanford, all of Michigan, all of whom are accused in a joint bill returned by the grand jury of defrauding creditors. The charge relates to the alleged fraudulent dealings of a group of men, contained in a complaint filed by William Dagler for damages. Mr. Dagler alleges a conspiracy was

pre-war debt.

Paris, May 24.—The treaty will be signed by the allies and German delegates between June 10 and 15, or the armistice will be broken, was the forecast in peace circles today.

The Germans are now expected to hand the allies their counter proposals by May 29. These will be printed in book form and will be almost as voluminous as the allied treaty.

The present indications are that the allies will take four or five days to study the German's counter proposals before replying and then it is expected that it will take the Germans about the same time in which to make up their minds about signing.

The Austrian peace treaty is expected to be completed Tuesday and presented to the enemy delegates on Wednesday or Thursday. The working out of terms has proven a difficult task especially the apportioning of the former dual monarchy's

pre-war debt.

In Austria and the new states of Jugoslavia and Czechoslovakia, the army will be reduced to a mere police force, probably 15,000 men, and all remaining artillery will be surrendered.

The Big Four today continued discussion of the Russian situation, which has again come to the front as the result of tentative plans of the allies to make some recognition of Admiral Kolchak, dictator of the Omsk government.

Robinson Will Open Campaign to

Washington, May 24.—Senate debate on the league of nations promises to be the most bitter partisan fight staged in the upper house for years.

Democrats are preparing a series of speeches to counter republican attacks. Sen. Robinson, Arkansas, will begin the democratic campaign to stir up popular sentiment which will force hostile senators to vote for the league covenant, he says. Debate on the league covenant will be resumed again Monday.

Senator Hiram Johnson resolution for immediate presentation of the full text of the treaty is the only unfinished business and will come up each day until disposed of, either by direct vote, or be sent to the foreign relations committee.

In addition to discussion of Johnson's resolution, Reed will speak Monday on the league and Robinson will follow him.

It is reported that Johnson is preparing a speech that will be delivered within a few days.

Announcement by Senator Lodge that he will apply pitiless publicity to senate's consideration of the treaty, was stated today to be positive assurance that much of the discussion will be in open session for the first time in the history of the treaty making in this country.

Due publicity, republican leaders say, will provide justification for their demands for amendment of the league covenant.

While the senate today took a week-end rest, the house continued consideration of the Indian appropriation bill.

The republican committee slates are now virtually complete. Senators Watson and New of Indiana are both picked for good berths. Senator Watson will retain his place on the interstate commerce committee, which will deal with the rail-

THREE FIREMEN DIE

Bay Today.

100 PASSENGERS RECUED

(By United Press)

Norfolk, Va., May 24.—Three colored firemen are known to be dead and several passengers are believed lost as the result of a fire which totally destroyed the Old Bay liner steamer Virginia, in Chesapeake bay, early today.

Nearly one hundred passengers from the ill fated vessel landed here, most of them scantily clothed and all their baggage lost.

The Virginia left Baltimore last night for Norfolk. About one o'clock fire was discovered in the forward hold. It spread so rapidly that the fire apparatus was useless. As the second life boat was being lowered, the rope broke and 18 women dropped into the water. Thirty-five other women met the same fate.

Whether all of the passengers were rescued it cannot be determined until the list has been checked up. The three colored firemen were trapped by the fire and were unable to escape.

Catches Spy Single-Handed

The feat of catching a spy single-handed is one of the thrills of "The Winning Girl," Shirley Mason's new paramount picture which is being shown at the Princess theatre today.

The episode happens in a textile factory where fabric is made for aeronautics. Miss Mason in the role of Jenny Milligan, a girl who is working in the factory, finds the spy pouring acid on the cloth and grapples with him. She gets him twisted up in the rolls of cloth and he is taken prisoner. Jenny gets the reward, but a greater one comes when the mother of a young aviator who has won the heart of the girl, finally gives her consent to their marriage.

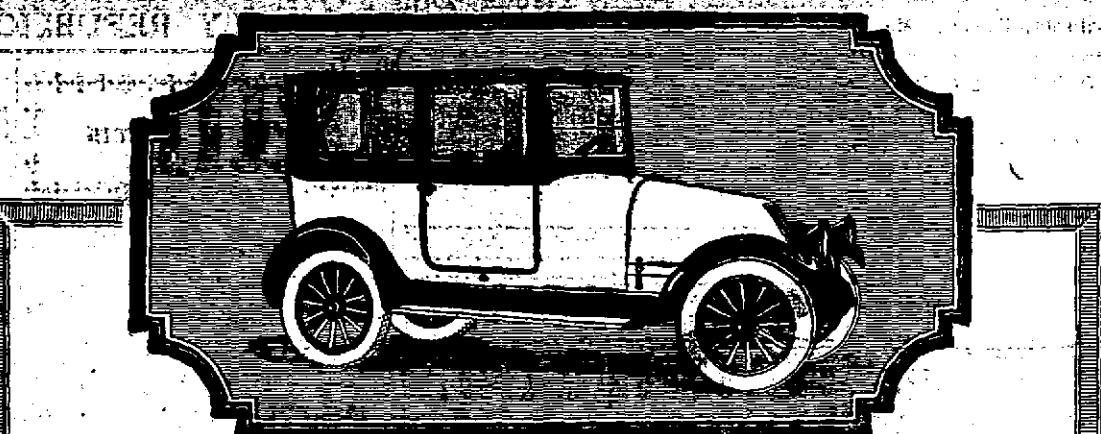

The story is by George Weston. Will M. Ritchey prepared the scenario and Robert G. Vignola directed the film. Niles Welch is leading man. Theodore Roberts has an excellent part. The others in the cast are all notable players.

SECOND IN LARGE AREA OVER THE TOP

Connorsville District, in Which St. Paul's Church Was First, Pledges Centenary Quota

CAMPAIGN CLOSES SUNDAY

The Connorsville district of the Indiana M. E. conference was the second in the Cincinnati area, embracing six conferences, to report its centenary quota subscribed. The campaign for the Indiana conference allotment of \$3,100,000 will close tomorrow, when it is hoped to have a large oversubscription.

St. Paul's church of this city was in a large measure responsible for the Connorsville district's record because of having pledged more than \$33,000 the first week in April, more than a month before the campaign officially opened, and thus set a fine example for other churches. The Rev. C. S. Black, pastor, received many congratulatory letters and messages when his church went over the top April 5.

The aim of the Connorsville district is to have every church 100 percent by tomorrow night. Although the district has subscribed \$336,000, an oversubscription of \$490, some individual enlarges have not made their quota. Those not over the top are: Liberty, Brookville, Arington, Richland, Clarksburg, First church and West Street church, both of Shelbyville.

WILL EQUAL THE RECORD IN UNION

Continued from Page One more than the totals which Mr. Aultman will prepare Monday.

Mr. Aultman today issued the following statement to the citizens of Rushville city and Rushville township, announcing the close of the assessment work:

The assessment of the personal and real estate of the city and township, being now complete notices of assessments of real estate are being sent out as rapidly as time and the difficulties of the work will permit.

Having sought with patient care to follow the law and honestly and impartially appraise all classes of property, I am nevertheless conscious of imperfections owing to tangled conditions arising from changes of ownership and difficulty of locating many pieces of real estate. I will gladly and willingly rectify any mistakes which are called to my attention and take this occasion to thank the property owners and officials who so kindly contributed to the task.

DOVE OF PEACE AT REST IN TWO HOMES

Continued from Page One arranged by the defendants for the purpose of swindling him.

Recently an amended second paragraph of the complaint was filed, in which the demand was raised to \$92,275. The allegations in the amended second paragraph are the same as those in the original complaint and second paragraph. Mr. Dangler says the farm in Ohio for which he traded was represented to be worth \$65,925, but in reality it was worth only \$14,650, and that he is liable for three notes for \$26,000 which he executed to one of the defendants.

FRANCES WESTERFIELD DIES

Long illness results from broken hip suffered years ago.

Mrs. Frances Westerfield, age 83, died at her home in Manilla last night about nine o'clock, following a long illness brought on by a fall several years ago when she broke her hip. She is survived by one son, George W. Westerfield of Manilla, and two brothers, Robert Edwards of Manilla and L. H. Edwards of Shelby county. The funeral services will be conducted tomorrow afternoon at 2:30 o'clock, in charge of the Rev. James W. Brown, at the Christian church in Manilla.

The Interchurch Movement

The productive capacity of the world would be at least doubled if the health of the non-Christian races could be brought up even to the level of the health of the Christian. On statistics of progress everywhere is the underlying idea in a program for the study of life-conservation to be presented in a series of summer conferences just announced by the Interchurch World Movement of North America. Americanization of our foreign born citizens is the second great plank in the platform for the meetings.

Practically every organization of any magnitude connected with the missionary and welfare work of seventy-six Protestant denominations will be represented at the conferences, which are to be primarily training schools for leaders of the great Interchurch campaign. The series begins with the meeting at Pine Ridge, N. C., June 24 to July 3, followed by Silver Bay, N. Y., July 4 to 13; Estes Park, Colo., July 11 to 20; Alameda, Calif., July 15 to 24; Oconee Park, Mo., July 18 to 27; Lake Geneva, Wis., July 25 to August 3, and Seabrook, Wash., July 30 to Aug. 8.

The Missionary Education Movement has given up to the Interchurch Movement all the facilities for the

missionary training conferences it has conducted in past summers, including the personnel of its field organization, to take effect June 1, and the Women's Missionary Movement has taken similar action, according to word just given out by national officials of the two organizations. With these combined powers added to the representative forces of the larger project, there is an expanding and diversifying of the scope of the summer meetings that leaves only a slight resemblance to those of other years.

The seventy-six denominations included in the scope of the Interchurch Movement, with 200,000 separate churches and congregations totaling more than 50,000,000 people are combining their resources for systematic effort to improve conditions of life in all parts of the world. By the introduction of Christianity, the modern interpretation as furthered by the Interchurch projects means also introducing the benefits of Christian methods of living, in sanitation, child culture, working conditions, housing, clothing, scientific method of production and manufacture and any other element conducive to prosperity, health and general usefulness in the world.

Graduation

At the end of May and during the month of June the schools of our land are turning out thousands of boys and girls who have completed the courses assigned.

Each of these young people is prepared in a great measure for life. They may complete their school at this point, or may go on to college. In either event, each has received a valuable education from books and teachers, and one equally valuable from the association with other pupils, on the playground and after school hours.

The boys and girls have worked hard to complete their work and attain to graduation. Schools and communities are right in recognizing graduation as an event of importance. It is well to make the graduation day one that will leave a delightful impression in the heart of every student.

Then let us realize that the girls are entitled to their pretty white dresses and flowers and the boys to their new suits, and that every ar-

Rangement which can make the day distinctive and pleasant should be encouraged.

The older people of the town should show their interest by attendance at the exercises if possible.

Don't forget that these thoughtful and happy boys and girls are the citizens of the future, who will in course of time take our places in the community. Help to make their graduation day a little triumph for each of them.

Janesville Two-Row Cultivator

WHEN you sit comfortably on the easy riding Janesville Two-Row, and see every plant in every row getting exactly the cultivation you want it to have, you think what a blessing it is that you have a machine to do all that work. The old timers would think so if they could see you getting over the field so rapidly, and doing the work better than they ever did.

The Janesville Floating Arches solve the problem. They are hung by pendulums from the top bar and swing from side to side with a pendulum movement. You widen or narrow the gangs in the row with your feet. Or lock them at any width desired.

The shovels naturally follow the rows, but you can shift them to either side so quickly and so easily that you can hoe every hill without stopping the team.

Your own weight on the seat bars acts as a lever to turn the wheels slightly up hill—this big advantage takes the down-hill creep out of side-hill plowing. The entire machine is light, compact, flexible—no oiling needed except in wheel boxes.

Cultivate with a Janesville Two-Row—and you will forget that there ever was hard work in cultivation.

Continued from Page One
and moral movements of the community and the record during the past war is one to be proud of. Thirty-six members responded to the call and took up arms against Germany. Liberty bonds of each issues were bought and a sufficient amount of Victory Bonds were purchased to have a hundred dollar bond for each member who had enlisted—\$2,600.00.

The Red Cross and other war activities were liberally supported and all the war restrictions were rigidly observed by the lodge. The lodge at present has a membership of 402 and resources of \$16,000, over \$5,000 of which is invested in interest-bearing stocks and other investments. The lodge has a degree staff of thirty men, thoroughly drilled and equipped to confer the degrees in the most approved manner. This is the close of an active season for the local order and from all indications a bright future lies before them.

The present membership of the order is two and a quarter million members with resources of over seventy-three millions dollars. The lodge expends for relief each year nearly seven million dollars.

The Centennial committee, which made arrangements for the celebration is composed of Frank McIlwain, P. G., chairman, Alva Newhouse, Miles S. Cox, J. T. Arbuckle, Arnold Orme and Walter Perkins.

The Franklin lodge degree team, of which Alva E. Newhouse is director, is as follows:

Will Ash, Glenn Edwards, Henry F. Gregg, W. H. Gregory, Harry Land, Bert Mattox, J. W. Miller, Andrew Moore, C. L. McGinnis, Bert McIlwain, Frank McIlwain, Byron Newhouse, Arnold Orme, Walter Perkins, P. M. Piat, Russell Price, Earl Readle, Wm. Rodebaugh, Chas. WASHINGTON'S BODY IS FOUND IN RIVER

Alleged Slayer of Greensburg Detective, Who Escaped From Jail at Columbus, is Dead

BODY SUPPORTED BY TREE

Columbus, Ind., May 24.—The body of Thomas Washington, colored, of Indianapolis, the alleged

slayer of Elmer Robbins, a Big

Four Railway detective, at Greens-

burg, Ind., several weeks ago, was

found in White River here late yes-

terday afternoon by Andrew Cran-

dall of Louisville, Ky., who had

gone fishing. The body was sup-

ported by a small tree, which held

the head and shoulders above the

water.

Two small pieces of steel saws

were found on the body when it was

searched by Coroner George Cline. These pieces fitted exactly with other pieces found at the jail after Washington escaped.

Washington and two other men, Donald O. Stanley and Albert Myers both of Indianapolis, escaped from the local jail on Tuesday, May 13. Stanley was later apprehended. The latter two were charged with stealing an automobile. The theory is advanced by the local police that Washington was drowned while trying to obliterate his tracks by swimming the river.

Thomas Washington was arrested at Indianapolis April 17 a few hours after he had shot and killed Elmer Robbins, a Big Four Railroad detective, at Greensburg, Ind. With Washington was John Hancock also colored.

The Heel of Achilles in Tires

The weak spot in a tire is where tread stops and sidewall begins.

On any road but smooth, flat pavement, the spears of the road—stones and broken rock—are constantly jabbing at this Heel of Achilles. And the sides of wagon tracks, when you ride ruts, grind wickedly at vulnerable flanks.

Your eyesight tells you that. Now look at the SAFETY TREAD of Goodrich Tires. See how it spreads the Goodrich interlocking safety bars beyond the ball of the tire, and lays extra tread rubber along the sidewall.

Notice further, how the extra wide tread carries on up the sides of the tire, extending beneath the side strips.

Thus an extra thickness of tough tread rubber fortifies Goodrich Tires at the Heel of Achilles.

Remember, that is one of the many reasons why Goodrich Tires lead in mileage over all roads, rough or smooth.

verted into negligees, these brilliant coverings are simply stunning and bring out the Carmen in even the demurest of the species. It only needs a sliced Spanish onion for atmosphere and a guitar and castanet dancer on the Victrola, to make the Andalusian delusion quite complete.

Then there's the characteristic Spanish mantilla, black or white, of exquisitely fine and silky handmade Spanish lace—some of filmy delicate design and other more strikingly ornate and of a larger mesh. These we are flaunting, not as the Castilian beauties over their high combed coiffures and ivory throats and bosoms, but over our shimmering, shimmering shoulders, in the form of scarves, so imperative now as an accessory to the fluffy summer frock of sheerest weave. It's really quite a pleasant surprise to find that these lovely lengths of Spanish lace actually come from the Iberian peninsula, for aent that other Spanish accessory which is rushing so persistently to our heads, the high shell comb, I have my doubts as to its Spanish habitat. At least judging from my own experience for I simply combed all the Madrid shops both large and small, for a real honest-to-goodness Spanish comb and had to catch the train to Paris says the article. Since returning home, however, I have made good the deficiency for the other day I bought a stunning one in Brooklyn.

Those gaudily gorgeous and hectically hueful embroidered Spanish shawls, whose long fringed edges wrap the feminine elite of Spain on gala bullfight days, make perfectly bully summer evening wraps, to be worn at the end of a torrid day instead of at the end of a tornador. Don't by any chance make the fatal mistake of wearing a Chinese embroidered shawl and fancying yourself espagnola, however. To be sure there is little difference in the brands at a discreet distance, but a close-up will reveal a subtle differing of texture and design. The greatest difference of all, of course, is that the true Spanish shawl never even saw Spain, but is manufactured in the Philippine Islands. Con-

In handcarved tortoise, blonde or dark, in amber or in jet, these combs are as expensive as they are large, beautiful and fragile. Fortunately imitation shell ones carved or plain, are almost as immune from detection as a well made pearl. They are also one fourth as expensive and four times as durable as the real tortoise combs. Worn in the loosely waved high coiffures of the evening mode, thrust in at most piquant angles, they make an artistic adjunct to the smartest toilette and are of

TIME LIMIT ENDS SUNDAY

Day Marks Close of N. E. Centenary Campaign in State

(By United Press)

Indianapolis, Ind., May 24.—Tomorrow is the end of the time limit set by Indiana Methodists for the collection of \$5,000,000 for the centenary budget. The money will be used in carrying out a world-wide program of the church, including home and foreign missions reconstruction work in Europe, enlargement of hospitals, development of rural churches and community welfare work.

The \$5,000,000 goal of the Hoosier Methodists represents the state's quota in the national drive for \$115,000,000. This amount was apportioned among various cities and counties of Indiana.

URGE FARMERS NOT TO FEAR LOCUSTS' ADVENT

(By United Press)

Entomologist Says They do Not do as Much Damage as They Are Reported of Doing

APPEAR IN MANY SECTIONS

(By United Press)

Indianapolis, Ind., May 24—Frank N. Wallace, state entomologist, is sending out word to farmers of Indiana not to fear the advent of the locusts, but to kill them whenever the opportunity presents itself. He says that the locusts do not do as much damage as they are reported of doing. Their only method of damaging farm crops, Wallace says, is to alight on the very young orchards split the branches and lay their eggs.

of damaging farm crops, Wallace office, the locusts are being plowed up in every section of the state. They are not formed yet, having no wings and no voices. At this time of the year they are discovered as small brown bugs and are plowed out of the grounds where they hored holes last fall to hibernate.

The method of development is to crawl in the sun and swell as they become warm. The brown shells finally burst and small locusts come forth.

The female of the species in this case is "more deadly than the male," Wallace says. The male flies into a tree and sings while the female splits the branches and deposits the eggs. The female cannot sing. After the eggs are placed in the cavity of the tree branches, the old locusts have accomplished their purposes of propagation and pass on to their happy hunting grounds.

SATURDAY, JUNE 21, 1919

SALE TO COMMENCE AT 1:00 P. M. SHARP

offer for sale to the highest and best bidder at the farm located one mile south of Gings Station, and six miles northeast of Rushville, in Union township, the following described real estate in Rush County, State of Indiana, to-wit:

Sixty-one acres off of the west side of the west half of the southeast quarter of Section fourteen, Township fourteen north of Range ten east; also commencing eighty-four (84) rods west of the northeast corner of the southeast quarter of Section fourteen (14) Township fourteen (14) north of Range ten (10) east; thence south fifty (50) rods; thence west sixteen (16) rods; thence north fifty (50) rods; thence east sixteen (16) rods to the place of beginning containing five acres.

Also the southwest quarter of Section fourteen (14), Township fourteen (14) north of Range ten (10) east, except all that portion lying northwest of the Jeffersonville, Madison and Indianapolis Railway, sold to Daniel B. Newkirk, containing forty-nine acres and sixty-one rods.

Also excepting four (4) acres, being the right-of-way of said railway; also except the following: commencing at the southwest corner of the southwest quarter of Section fourteen (14), Township fourteen (14), Range ten (10) east; thence east forty-three (43) rods and five (5) feet; thence north seventy-five (75) rods and thirteen (13) feet to the right-of-way of the J. M. and I. Railroad; thence in a southwesterly direction along said right-of-way to the J. M. & I. Railroad fifty-nine (59) rods and six (6) feet to the west line of said quarter section; thence south thirty-four (34) rods and twelve and one-half (12 1/2) feet to the place of beginning, containing fifteen (15) acres, and containing in all one hundred and sixty-one acres more or less.

FARM IS WELL IMPROVED

Good two-story house, good barn, new silo, living water, also wind pump, natural gas, all good out-buildings; hog sheds with cement floors for feeding hogs. This is an ideal farm, none better in Rush county, being on free gravel road within one mile of shipping station and elevator with scales on farm. This farm is being sold by reason of the death of the owner, Robert N. Hinchman. The growing corn on said farm the purchaser will receive the landlord's one-half, but the growing wheat is reserved. Possession given March 1st, 1920.

TERMS OF SALE

One-third cash on day of sale; one-third in six months and one-third in nine months from date of said sale, with six per cent interest from date, privilege given to pay all cash. Deferred payment to be secured by a mortgage on said real estate.
